## MicroWorld Releases New MWAV(8.x)- Antivirus Toolkit Utility

*MicroWorld, a company which made the world's first Real-Time Anti-Virus and Content Security software eScan for desktops and servers, has introduced a one year license for MWAV 8.0 for its toolkit utility.*

/24-7PressRelease/ - FRAMINGTON HILLS, MI, January 07, 2006 - MWAV 8.x comes with a new improved GUI for better usability and effectiveness, powerful spyware and adware detection. Intelligent detection and disinfection of registry entries of viruses, spywares, adwares and other malice.

Great care and focus is applied to find out every new threat in the form of virus, spyware, adware etc. The utility is consistently updated with the same immediately. In depth RandD is employed by MicroWorld, to improve the intelligence and firepower of the system, all the time.

MWAV 8.x comes with additional features such as it scans computer completely and provides reports of any virus, worm or Trojan found. It checks for all illegal dialers that are present on the computer and informs the users of the same.

It informs the users of all spywares, adwares, keyloggers etc in your computer. The ability to make MWAV as a "start-up" program, through the scheduled tasks list, so that it scans your computer every time you start using it. The most updated and the largest list of known viruses and auto updating options. There is no need to install. Just download and run the MWAV toolkit to scan for viruses.

MWAV 8.x also provides multi-language support, the most recent one being Chinese.

MWAV was earlier sold on a monthly basis and the user were required to renew the licence every month.

You can download it at,

MicroWorld Technologies Inc. is the publisher of world's first real time antivirus and content security software eScan and MailScan, for desktops and Mail Servers respectively. Headquartered in Michigan it has its development centre in India which Asia-Pacific and Europe headquarter. MicroWorld has presence in more than 74 countries today and reselling through a channel network of more than 13,000 Resellers, Distributors, Security partner and System Integrator.

MicroWorld's Revolutionary "MicroWorld-WinSock-Layer (MWL)" technology, the first of its kind in the world. It deals with these threats before they enter your network, in the same way that a firewall controls user access.

Our products, eScan and MailScan are reliable and time tested products and have been awarded some of the most prestigious awards and certificates in the internet security industry. These have been successful in fighting the epidemics like SOBIG and the recent MyDoom attack.
