CastleCops forum members rate MWAV as an Excellent Anti-Virus and Spyware Toolkit Utility

Added: (Mon Oct 10 2005)

MicroWorld's MWAV which efficiently scans & removes Virus, Spyware, Adware, Keyloggers, Illegal dialers and etc. from your computer, is rated as an "Excellent Anti-Virus and Spyware Toolkit Utility" by CastleCops forum members. CastleCops is a discussion forum for security professionals and includes sub-forums such as firewalls, homeland security and offers software reviews and downloads of specific security vendor products.

Anee one of the forum member comments;

"MWAV is an Excellent Anti-Virus and Spyware Toolkit Utility, one of the Fastest Software. There is no need to install, its fully reliable, self extracting zip EXE, 24x7 efficient & timely support. Free to Scan and very nominal licensed version. It is far better than other online scanners as it can be executed any time and updated with the latest signatures."

Following is the review by Anee.

Overall Feeling 5/5
Customer Support 5/5

Value for the money 5/5
Product's ease of use 5/5
Ease of installation 5/5
Product website 5/5
Reliability 5/5

Another member, Linda Spice says that "MWAV is user friendly and I am really happy with its efficiency." In her review, Linda Spice has given MWAV 5/5 rating for Product's ease of use, Ease of installation & Customer Support.

MWAV support the following features;

- 1. Scans your computer completely and provides reports of any viruses that it finds.**
- 2. Checks for all illegal dialers that are present on your computer and informs you of the same.**
- 3. Informs you of any background illegal sniffers or tools like spywares, adwares, keyloggers etc. running in the memory of your computer.**
- 4. You can add this utility to the startup list of programs on your computer so that it scans your computer every time you start using it.**
- 5. When you download this utility you will get it with the latest updated list of viruses so that it scans your computer for all known viruses.**
- 6. No need to install. Just download and run the MWAV toolkit to scan for viruses.**
- 7. MWAV also provides multi-language support.**
