ANC signs up MicroWorld as its security partner

Al Nekhreh Contracting (ANC Group), having varied businesses and a leading player in the construction industry with ISO 9002 certificate has signed up MicroWorld for securing their entire IT network infrastructure.

MicroWorld has offered a complete Antivirus and Content security solution consisting of eScan, MailScan and WebScan.

ANC had been in the process of evaluating a number of security products available in the market. However after careful evaluation decided to sign up with MicroWorld as it offered the complete range of solutions to protect its network from all kinds of security attacks like virus, worms, Trojans, Spy ware, Ad ware, programs etc. The solution also takes care of unwanted Spam, Advertisements, unproductive web surfing and blocks streaming Audio / Video.

'Our network consists of both Windows and Linux based systems. MicroWorld offered us with the necessary security solutions to protect both our Windows as well as Linux based servers and desktops. Thus offering us the opportunity of working with a single partner for our complete requirement of security solutions. Most interesting part of MicroWorld's solution is a three layer protection at Mail server, Proxy server and Workstations. The products are not only rich in features but also have a comprehensive reporting feature, which helps us in evaluating security breach and bandwidth usage in the network. We were also very impressed with the support staff and that they offered us 24 x 7 free online support,' said Mr.Surendran Pariyanghat, Group IT Manager, ANC.

During the evaluation process, MicroWorld worked with its partner in Dubai, to provide the necessary pre-sales support for ANC. 'We are already have a very good corporate client base in UAE and Middle East and our solutions are very much accepted and appreciated. We are looking forward to signup more such group companies in the region with our complete solutions' said Mr.Nazir Kazi, Assistant General Manger, MicroWorld Technologies Inc.
