MailScan 4 for Merak 4.4a

Software Information:

"MailScan 4 for Merak is the world's first "Real-Time" e-mail scanner for Merak Mail Server. This server is published by IceWarp Software. MailScan 4 for Merak acts like a Content-Security and Anti-Virus Software for your Corporate Merak. It scans and cleans e-mails that flow between all the local users, go from your Merak to the Internet, & come into your Merak from the Internet (either via SMTP or POP3).
