MailScan conferred with Novell status

[CYBERMEDIA NEWS](#)

Friday, December 03, 2004

MicroWorld Software Services Pvt Ltd has announced that MailScan for Linux has joined the Novell Ready Program. According to the press release, this status establishes that MicroWorld's products are compatible with Novell Enterprise Linux.

The product was awarded Novell Ready status for Suse Linux desktop, Suse Linux Enterprise Server 8, Suse Linux Enterprise Server 9, Suse Linux Standard Server. Novell will now include MicroWorld's products in the list of certified applications that is given to current and potential customers, and is available at <http://www.novell.com/partnerguide>.

With the increased penetration of GNU/Linux as an alternate operating system for server and desktops, attacks on GNU/Linux based machines have increased. About 90 percent of the viruses today enter the organizations via Internet and through emails.

The only solution is to provide content security or in a broader sense, an on demand anti-virus software solution that can be
